

Second Special Master Report (Filed Aug. 4, 2006)

Area	Compliance	Source	Page
INTERIM MEASURES			
Restricted Programming	Non	"In April, recreation time was reduced to 1 hour due to damage to some of the "SPAs" (or "cages")...nine of twenty-five youth who were on the most restricted program in the SMP [Special Management Program] were allowed out of their cells for only 1 hour per day."	4
Staffing	Non	"DJJ assigned a project manager of the requisite rank to manage its compliance efforts by February 2006...he retired in early May 2006 and has yet to be replaced."	7
Risk Classification	Partial	"DJJ took steps towards implementing its November 2004 interim risk classification plan, but then abandoned it...With the support of Consent Decree expert Krisberg, plaintiff contended that DJJ unreasonably was resisting risk classification that would improve safety."	8
Lockdown Inyo Plan	Substantial	"Inyo (at O.H. Close) will be used to house only (1) youth in need of "temporary interventions" by staff to de-escalate potentially dangerous situations, (2) youth awaiting transfer to other facilities or to court proceedings and (3) youth suspected of serious assaults on staff or on youth involving the use of a weapon."	9-10
SEXUAL BEHAVIOR TREATMENT			
Staffing	Partial	The task force "has been handicapped by DJJ's failure to hire someone to fill the Sexual Behavior Treatment Coordinator position."	13
Treatment Curricula	Partial	"The task force has completed one of the several treatment curricula...DJJ may not be devoting sufficient resources to the development of the remaining curricula."	13
Treatment Files	Non	DJJ staff "acknowledge that, at present, the sex behavior treatment notes are entered in four different files (paper and electronic), some of which cannot be assessed by non-clinical members of the treatment team (counselors, parole agents)."	14
Outpatient Treatment	Non	"Outpatient sexual behavior treatment has yet to be defined or designed."	16
Aftercare Programs	Non	"Dr. Schwartz also found that many of the sexual behavior treatment clinicians, counselors and parole agents are not aware of the aftercare programs available in the community for paroled and discharged youth."	16
ACCESS FOR YOUTH WITH DISABILITIES			
Staffing	Substantial	"A key achievement and factor in DJJ's progress was its retention of department and facility level disabilities program coordinators and, at six facilities, assistants to the coordinators."	17
Staff Training	Non	"...DJJ is falling far behind the plan's June 2006 deadline for training all staff in disability sensitivity, awareness and harassment."	17
EDUCATION			
Staff Pay and Recruitment	Partial	DJJ "has established competitive pay levels for teachers, expanded its efforts to recruit quality teachers and adopted a 220 day school schedule to be implemented in August 2006 as required by the plan."	19
Staffing	Non	"DJJ has not had a permanent Superintendent of Education since the education plan was filed, and this is a problem."	20
